

EU cooperation on migration in Libya

EU Trust Fund for Africa - North of Africa window

Since 2014, the European Union has mobilised **€286 million on migration-related projects in Libya**; €266 million under the EU Emergency Trust Fund for Africa and €20 million as bilateral assistance. Through the Emergency Trust Fund for Africa the EU is actively working to provide protection, assistance and alternatives to migrants, refugees and internally displaced people in Libya. Help is being provided for migrants at disembarkation points, inside and outside detention centres or in host communities by IOM and UNHCR. Help provided includes for example medical assistance, or the distribution of basic items and hygiene kits. Support is also aimed at stabilisation of host communities, through socio-economic development at municipal level and to better integrate migrants, internally displaced people (IDPs) and returnees. All projects are implemented by international partners on the ground, such as the UN agencies or by EU Member States.
